Intellectual
POINT

CompTIA Data+ is designed for those who contribute to an organization's ability to make data-driven decisions. This is equivalent to 18–24 months of real world hands-on experience working in a business intelligence or data analyst job role. People who earn CompTIA Data+ have the knowledge and skills required to transform business requirements in support of data-driven decisions by:

- Mining data
- Manipulating data
- Applying basic statistical methods
- Analyzing complex datasets while adhering to governance and quality standards throughout the entire data lifecycle

WHO SHOULD ATTEND?

Beyond those who have data-specific careers, other career paths can benefit from analytics processes and data analytics knowledge. Jobs like marketing specialists, financial analysts, human resource analysts or clinical health care analysts can optimize performance and make well-informed decisions when they use and evaluate data correctly.
