The AWS Certified Solutions Architect – Professional (SAP-C02) exam is intended for individuals who perform a solutions architect role. The exam validates a candidate’s advanced technical skills and experience in designing optimized AWS solutions that are based on the AWS Well-Architected Framework.

The exam also validates a candidate’s ability to complete the following tasks within the scope of the AWS Well-Architected Framework:

- Design for organizational complexity
- Design for new solutions
- Continuously improve existing solutions
- Accelerate workload migration and modernization

EXAM

This certification validates your advanced technical skills and experience in designing distributed applications and systems on the AWS platform. This exam is for anyone with two or more years of hands-on experience designing and deploying cloud architecture on AWS.

PREREQUISITES

Eligible candidates for this exam must have achieved AWS Certified Solutions Architect - Associate.

This course is for:
