

Real Training. Real Practice. Real Results.

# Certified Secure Software Lifecycle Professional (CSSLP)

## Training Program

The Certified Secure Software Lifecycle Professional (CSSLP) validates that software professionals have the expertise to incorporate security practices – authentication, authorization and auditing – into each phase of the software development lifecycle (SDLC), from software design and implementation to testing and deployment.

The broad spectrum of topics included in the CSSLP Common Body of Knowledge (CBK) ensure its relevancy across all disciplines in the field of information security. Successful candidates are competent in the following eight domains:

- Secure Software Concepts
- Secure Software Requirements
- Secure Software Design
- Secure Software Implementation/ Programming
- Secure Software Testing
- Secure Lifecycle Management
- Software Deployment, Operations, and Maintenance
- Supply Chain and Software Acquisition

### Experience Requirements

A candidate is required to have a minimum of 4 years of cumulative paid full-time Software Development Lifecycle (SDLC) professional work experience in 1 or more of the 8 domains of the (ISC)<sup>2</sup> CSSLP CBK, or 3 years of cumulative paid full-time SDLC professional work experience in 1 or more of the 8 domains of the CSSLP CBK with a 4-year degree leading to a Baccalaureate, or regional equivalent in Computer Science, Information Technology (IT) or related fields.

If you don't have the required experience to become a CSSLP, you may become an Associate of (ISC)<sup>2</sup> by successfully passing the CSSLP examination. You will then have 5 years to earn the 4 years required experience.

## Learning Objectives

- **Domain 1:** Secure Software Concepts
- **Domain 2:** Secure Software Requirements
- **Domain 3:** Secure Software Design
- **Domain 4:** Secure Software Implementation/Coding
- **Domain 5:** Secure Software Testing
- **Domain 6:** Software Acceptance
- **Domain 7:** Software Deployment, Operations, Maintenance and Disposal
- **Domain 8:** Supply Chain and Software Acquisition

# CSSLP

Certified Secure  
Software Lifecycle Professional

## Course Features

- Live instructor-led training in modern classrooms
- Thorough review of the CSSLP by industry experts
- Hands-on labs
- 24 x 7 access to the real labs in classrooms and remotely
- 100% latest material & all practice questions
- Confidence building hands-on training
- Classroom located in Reston & conveniently accessible from Silver Line Metro
- Authorized Pearson VUE testing at same location to help you complete your exam
- Study material, notes, videos and practice questions included in course price

## Course Schedule

Session	Topics
1	<ul style="list-style-type: none"> <li>• Secure Software Concepts</li> <li>• Secure Software Requirements</li> </ul>
2	<ul style="list-style-type: none"> <li>• Secure Software Design</li> <li>• Secure Software Implementation/Coding</li> </ul>
3	<ul style="list-style-type: none"> <li>• Secure Software Testing</li> <li>• Software Acceptance</li> </ul>
4	<ul style="list-style-type: none"> <li>• Software Deployment, Operations, maintenance and Disposal</li> <li>• Supply Chain and Software Acquisitions</li> </ul>
5	<ul style="list-style-type: none"> <li>• CSSLP exam review</li> </ul>

## Our guarantee

If you do not achieve a passing score on your first attempt at the exam within 30 days of completing the class, you will have the option to re-take the entire training course at no additional charge.

For more information about our courses, pricing, or consultation, please call (571) 577-7890 OR (703) 554-3827

Or email [info@intellectualpoint.com](mailto:info@intellectualpoint.com)

Payments are accepted via cash, check, or credit card. Ask us about group discounts!
