

Training Program

CompTIA Linux+

Linux+ certifies foundational skills and knowledge of Linux. With Linux being the central operating system for much of the world's IT infrastructure, Linux+ is an essential credential for individuals working in IT, especially those on the path of a Web and software development career..

Duration
4 Days

Certification
CompTIA Linux+

EXCELLENCE
THROUGH
EDUCATION

Intellectual
POINT

The new CompTIA Linux+ is geared to teach the learner who will use Linux to manage everything from cars and smartphones to servers and supercomputers, as a vast number of enterprises use Linux in cloud, cybersecurity, mobile and web administration applications.

In the new CompTIA Linux+, candidates are only required to pass one exam for certification. However, the new certification is no longer eligible for the LPI 2-for-1 offer.

- CompTIA Linux+ is the only job-focused Linux certification covering the latest foundational skills demanded by hiring managers.
- Unlike other certifications, the new exam includes performance-based and multiple-choice questions to identify the employees who can do the job.
- The exam covers tasks associated with all major distributions of Linux, setting the foundation for advanced vendor/distro-specific knowledge.

WHO SHOULD ATTEND?

- Linux Database Administrator
- Junior Linux Administrator
- Junior Network Administrator
- Web Administrator
- Anyone looking to build a foundation of Linux skills that will stay with them throughout their career

PREREQUISITES

This Linux+ Boot Camp is designed for students that have extensive experience with at least one other operating system and a working knowledge of a UNIX-style editor. CompTIA recommends having an A+ and Network+ certification, or equivalent experience, as well as 12 months of Linux experience.

Learning Objectives

- CompTIA Linux+ is geared to teach the learner who will use Linux to manage everything from cars and smartphones to servers and supercomputers, as a vast number of enterprises use Linux in cloud, cybersecurity, mobile and web administration applications.
- In the new CompTIA Linux+, candidates are only required to pass one exam for certification.
- 1.0 Hardware and System Configuration 21%
- 2.0 Systems Operation and Maintenance 26%
- 3.0 Security 19%
- 4.0 Linux Troubleshooting and Diagnostics 20%
- 5.0 Automation and Scripting 14%

Course Schedule

SESSION 1:

- Hardware and System Configuration

SESSION 2:

- System Operation and Maintenance
- Security

SESSION 3:

- Linux Troubleshooting and Diagnostics

SESSION 4:

- Automation and Scripting

COURSE FEATURES

- Live instructor-led training in modern classrooms
- Thorough review of the CompTIA Linux+ by industry experts
- Hands-on labs with real computer hardware and software including CentOS Linux
- 100% latest material & realistic practice questions
- Confidence building hands-on training
- Authorized Pearson VUE testing at same location to help you complete your exam
- Study material, notes, videos and practice questions included in course price
