PenTest+ assesses the most up-to-date penetration testing, and vulnerability assessment and management skills necessary to determine the resiliency of the network against attacks. Successful candidates will also have the intermediate skills and best practices required to customize assessment frameworks to effectively collaborate on and report findings and communicate recommended strategies to improve the overall state of IT security.

The skills covered by CompTIA PenTest+ help companies comply with regulations, such as PCI-DSS and NIST 800-53 Risk Management Framework (RMF), which require pen tests, vulnerability assessments and reports. CompTIA PenTest+ is approved under the Department of Defense (DoD) Directive 8140/8570.01-M and under ANSI/ISO standard 17024.

EXAM TOPICS:

- Planning and scoping a penetration testing engagement
- Understanding legal and compliance requirements
- Performing vulnerability scanning and penetration testing using appropriate tools and techniques, and then analyzing the results
- Producing a written report containing proposed remediation techniques, effectively communicating results to the management team and providing practical recommendations

The primary CompTIA PenTest+ job roles:

- Penetration Tester
- Security Consultant
- Cloud Penetration Tester
- Web App Penetration Tester
- Cloud Security Specialist
- Network and Security Specialist
- Information Security Engineer
