

# Take your career to the next level.

Get Discovered with a resume makeover

## Who We Are

Intellectual Point is a leading IT training, consulting and workforce development company. Our courses are designed with an emphasis on learning-by-doing to prepare busy professionals with the skills and certifications needed to be successful in the IT industry. We prepare you with the marketable skills and knowledge needed for today's competitive job market.

### Build your personal brand

Let us help you tell your unique professional story. Your experiences, skills, personality, and ambitions will shine in your resume and online profile.

### Attract top recruiters

After a hiring manager views your resume, the next place they visit is your LinkedIn profile. Make sure you have your online story ready for your next career move.

### Expand your network

Connect with companies that are looking for your expertise. It is a competitive world out there, you need to stand out from the crowd. Your first impression and digital introduction are very important.
