Software and networking become more and more interconnected every day. Technology advances are enabling new applications and businesses that connect everything—people, devices, machines, and applications. And with intent-based networking, organizations can take advantage of automation to scale and secure their networking infrastructure. To capitalize on these opportunities, today's networking professionals need a broader range of skills and deeper focus in strategic technology areas. The new CCNP Enterprise certification program gives you exactly that breadth and depth.

We designed the new CCNP Enterprise certification to help you prove your skills in the ever-changing landscape of enterprise network technologies. The certification covers core technologies and an enterprise focus area of your choice. You choose where you want to focus. You choose where to take your career.

Among the industry's most widely recognized and respected certifications, CCNP sets you apart. It tells the world you know what you are doing. In addition, completing a CCNP certification exam earns you a Cisco® Specialist certification, so you get recognized for your accomplishments along the way.

BENEFITS

- Show the world you know your stuff with a high-value certification
- Customize your certification to your technical focus
- Position yourself for advancement in the fast-paced world of enterprise technologies
- Add networking automation skills to your areas of expertise
- Earn a Specialist certification for passing any CCNP exam - core or concentration
- Qualify for the CCIE Enterprise lab exam by passing the CCNP core exam
- Link that CCNP certification badge to all your social media profiles

EXAMS

To earn CCNP Enterprise, you pass two exams: a core exam and an enterprise concentration exam of your choice.

- The core exam focuses on your knowledge of enterprise infrastructure including dual-stack (IPv4 and IPv6) architecture, virtualization, infrastructure, network assurance, security, and automation. The core exam is also the qualifying exam for CCIE Enterprise Infrastructure and CCIE Enterprise Wireless certifications. Passing this exam helps toward earning any or all of these certifications.
- Concentration exams focus on emerging and industry-specific topics such as network design, SD-WAN, wireless, and automation. You can prepare for concentration exams by taking corresponding Cisco training courses.
- Core exams in each technology track also serve as qualifying exams for CCIE lab exams.

Learning Objectives
