EXCELLENCE
THROUGH
EDUCATION

Intellectual
POINT

Achieving the Amazon Web Services (AWS) Security – Specialty certification enables tenured cloud security professionals to demonstrate their ability to secure the AWS cloud. In this course, we will cover all of the major areas of AWS security and associated services to become an AWS security specialist and obtain the certification, including:

- Security Basics
- Security of AWS
- Security in AWS
- Using AWS Security Products
- Securing AWS Services
- Identity and Access Management
- Compliance
- Incident Management & Troubleshooting

EXAM

The AWS Certified Security – Specialty exam includes multiple-choice, multiple answer questions. You will have almost three hours to complete the 65-question exam.

PREREQUISITES

- A minimum of five years of IT security experience, designing and implementing security solutions.
- At least two years of hands-on experience securing AWS workloads.
- Security controls for workloads on AWS.

Learning Objectives

- **Domain 1:** Incident Response
- **Domain 2:** Logging and Monitoring
- **Domain 3:** Infrastructure Security
- **Domain 4:** Identity and Access Management
- **Domain 5:** Data Protection
