For Immediate Release: 10/7/20

Intellectual Point is Awarded DBVI Partner of the Year 2020

Sterling, VA (10/7/20) – Intellectual Point announces that it has been awarded DBVI Partner of the Year. Today at the DBVI Celebrating Ability annual awards ceremony Intellectual Point was awarded the DBVI Partner of the Year! Intellectual Point has been providing support and education to DBVI for many years and it has been a privilege to work with them.

“I am so excited to introduce our DBVI Partner of the Year: Intellectual Point! What is a true partner? To me, someone who goes the extra mile, extends help beyond what is expected, and helps others accomplish their dreams. This is Intellectual Point, Prem Jadhvani and Neeta Hukmani.

Through CPID, we have had the opportunity to partner with Intellectual Point in numerous ways. Prem holds over 100 advanced IT Certifications and Credentials, and yet he will take time out of his busy day to give career pathway advice to our individuals, work with our transition students, and to convert an entire textbook to Word to make it accessible. Prem has sponsored our IT credential fair, which has grown to a crowd of 200 last year, and we hope even more this year as he figures out how to conduct it virtually.

Neeta Hukmani serves us behind the scenes with attendance and reminders, motivating and working with our students to bring out their best!

In addition, I have never worked with any member of the Intellectual Point staff that has been any less than stellar in their customer service and response. I am very happy to announce our partner of the year: Intellectual Point!” - Tish Harris

We are so honored to win this award and look forward to many more years with DBVI!

The flexible schedule and support for students with disabilities allows Intellectual Point to offer course topics of Cyber Security & Cloud Computing; Networking, Wireless, and Data Center; Big Data, IoT & Data Science; Project Management, Agile, DevOps & ITSM; Artificial Intelligence & Machine Learning; Deep Learning & Cognitive Computing.
