## Training Program

CCNA® stands for Cisco® Certified Network Associate. This "Associate" training program is the first rung on the ladder of Cisco® certification, which leads to "Professional" and finally "Expert" level. The new CCNA® program prepares you for today's associate-level job roles in IT technologies. CCNA® now includes security and automation and programmability. The program has one certification that covers a broad range of fundamentals for IT careers, with one exam and one training course to help you prepare.

Newly retooled for the latest technologies and job roles, the CCNA® training course and exam give you the foundation you need to take your career in any direction.

Cisco Certified Network Associate v2.0 (CCNA 200-301) tests a candidate's knowledge and skills related to network fundamentals, network access, IP connectivity, IP services, security fundamentals, and automation and programmability.

### PREREQUISITES

There are no formal prerequisites for CCNA certification, but you should have an understanding of the exam topics before taking the exam.
