Intellectual POINT

Introducing the Certificate of Cloud Auditing Knowledge™ (CCAK™), brought to you by Cloud Security Alliance® (CSA), a global leader in cloud security research, training, and credentialing, and ISACA® a global leader in training, education, and certification for IS/IT professionals. This certificate fills a gap in the market for vendor-neutral, technical education for IT audit, security, and risk professionals to help their organizations reap the full benefits of cloud environments.

What You Will Learn:

- **Assessment:** Understand the difference in assessing and auditing cloud environments versus traditional IT infrastructure & services.
- **Evaluation:** Discover how to use cloud security assessment methods and techniques to evaluate a cloud service prior to and during the provision of the service.
- **Governance:** Learn how existing governance policies and frameworks are affected by the introduction of cloud into the ecosystem.
- **Compliance:** Understand the unique requirements of compliance in the cloud due to shared responsibility between cloud providers and customers.
- **Internal Security:** Learn how to use a cloud-specific security controls framework to ensure security within your organization.
- **Continuous Monitoring:** Architect in a way that allows you to measure control effectiveness through metrics and ultimately leads to continuous monitoring.
