EXCELLENCE THROUGH EDUCATION

Training Program

The Business Analyst training plan contains two courses to support business analysts looking to expand their knowledge of RPA. The first course, Introduction to RPA and Automation, acts as your entry gate into the world of enterprise automation. Once completed, you move on to the RPA Business Analysis Fundamentals course. The UiPath RPA Business Analyst training starts at a beginner's level and progresses through to intermediate. It is aimed at Business Analysts looking to expand their RPA knowledge.

Introduction to RPA and Automation

The UiPath Introduction to RPA and Automation course covers four key areas to help kickstart your automation education. This introduction to automation includes:

- What Is RPA? What Is Automation?
- Automation Is Driving the Digital Transformation
- Automation in Business
- The Automation Journey

RPA Business Analysis Fundamentals

The RPA Business Analyst Fundamentals training contains an introduction to working as a BA, explaining RPA Business Analyst roles and their responsibilities. You then learn about the RPA journey and how the Business Analyst role can support each stage. The full agenda covers:

- Introduction to the RPA Business Analyst Role
- What is a Process? The RPA Perspective
- The RPA Business Analyst - Role, Skills and Challenges
- The RPA Journey and the BA's Role
- Overview
- Prepare RPA
- Solution Design
- Build RPA
- Test RPA
- Stabilize RPA
- Constant Improvement

TARGET AUDIENCE

The UiPath RPA Business Analyst training starts at a beginner's level and progresses through to intermediate. It is aimed at Business Analysts looking to expand their RPA knowledge.

Learning Objectives

- Define RPA and automation and explain their impact on digital transformation.
- Map and assess some of the business processes that are fit for automation.
- Describe the main stages of the typical enterprise automation journey and the role played by the Center of Excellence.
- Explain the components of the UiPath Platform and the benefits it brings to the fully automated enterprise™.
- Describe the role of a Business Analyst throughout each of the stages of an RPA implementation.
- Understand the challenges a BA can face and define the ways to overcome them.
- Conduct an Opportunity Assessment in order to identify the best processes to automate with RPA.
- Apply best practices in documenting processes proposed for automation.
- Outline a Process Design Document and other relevant documentation.
- Prepare and coordinate a UAT plan.
- Support in managing changes throughout the entire automation life cycle.
