## Training Program

The Palantir Certification Program will provide an opportunity for users to highlight their Foundry knowledge, skills, and abilities, while their employers will be able to accelerate their transformation by identifying and scaling Foundry users. Students will be able to increase the impact of Palantir’s software by leveraging more of their IT and data support network in the Foundry operating system. Palantir aims to infuse operations with intelligence by setting standards for using data to help transform organizations rather than just modernizing them.

### AUDIENCE

This course is aimed at Business Analysts, Business Managers, Process Analysts, and Process Managers, Big Data Analysts.

## Learning Objectives

- 01: Understanding and Exploring Your Foundry Ontology
- 02: Developing Your Ontology
- 03: Configuring Object Views
