## What you will learn

## This is what you will experience in the Pathway

The pathway includes 4 instructor-led classes for you to learn technical skills and applicable examples to prepare you for technical certifications and training towards IT Business Analyst.

Taught by Industry Veterans & World Class Instructors

## Potential Career Options

IT Business Analyst

Data Analyst

Business Intelligence Analyst

Tableau Developer

Business Systems Analyst

## Introduction to the IT Business Analyst Pathway

### Overview

This pathway is designed for individuals aspiring to build a career as an IT Business Analyst, with a specialization in Tableau. It combines foundational IT knowledge, business analysis skills, and advanced expertise in data visualization to bridge the gap between business needs and IT solutions. This program equips you with the tools to effectively analyze business processes, gather and document requirements, and transform data into actionable insights using Tableau.

Unlike a technical expert role, this pathway focuses on developing a strong understanding of IT concepts and analytical skills to collaborate with technical teams and business stakeholders. Whether you're facilitating communication, interpreting data trends, or delivering impactful Tableau dashboards, this career-building platform prepares you to drive data-informed decisions and add strategic value to your organization.

Business Process Analysis
